Beyond The Grades

ABSTRACT

Beyond The Grades is an alternative education platform where you can learn necessary skills from the resources collected from India's best industry experts. This app will educate you on how to ideate, develop a systematic approach to practical learning and sharpen your skillset in your desired field of interest.

Leaving behind the traditional careers, we have tailored over 50+ resources for over 15+ alternative careers such as Beat Boxing, Stand up comedy, Novel Writing, Film Making, Producing a film, Entrepreneurship, Startup, Web Series etc.,

To bridge the gap between 'degrees' and 'skills', we conceptualized 'Beyond The Grades'.

The idea behind this is to teach you skills not to inspire you.

Requirements (As Of Now) :

- Javascript
- JSON
- JQUERY

- PHP
- BOOTSTRAP
- Material UI

- Ajax
- PlayerJS
- Others…...

The model learns what a user is watching, the avg time he spends on the site, type of content watching, his level of understanding and analyzing things, predicts the next probable content he is interested in watching etc.,

All these analytics are drawn using machine learning learning algorithms.

Associative rule mining and tensorflow for recommendations etc.,
